<i>Student First & Last Name</i>	<i>Gender</i>	<i>Date of Birth</i>	<i>Age by September 1, 2018</i>

*The Cost of Afternoon Enrichment Program for **Kindergarten** students is \$3,311 spread evenly over 12 months. The first payment of \$276 is due upon acceptance and enrollment. The second and succeeding payments will be collected through SMART Tuition commencing in June, 2018.*

*The Cost of Afternoon Enrichment Program for **3's & 4's** is \$2,708 spread evenly over 12 months. The first payment of \$226 is due upon acceptance and enrollment. The second and succeeding payments will be collected through SMART Tuition commencing in June, 2018.*

SMART Tuition The business office will initiate your enrollment with SMART Tuition. The goal of the **Afternoon Enrichment Program (AEP)** is to lay a foundation for academic, social, and spiritual success for young children who are attending or will attend Veritas School.

Veritas School | Afternoon Enrichment Program | 2018-2019

Young children are able to acquire the skills necessary for success in school when they are offered activities and experiences that are language rich, hands-on, interesting and highly engaging. We have created a curriculum that is thematic and integrates the following in a way that is fun, relevant, and developmentally appropriate: phonics, math, music, art, and fine motor skills. The materials and activities offered are adjusted according to the developmental ability of each child. We have had great success with young children learning math skills, phonemic skills, and fine motor skills, as well as history or science knowledge by utilizing memorization through activities and songs. Children who are exposed early to this type of environment will be able to achieve success that will carry on throughout their educational years.

AEP is taught by our kindergarten teacher, Kami McNeill, who has had over 20 years of classroom experience. Her joy and passion is working with the youngest learners. Kami says “There is nothing more exciting than to watch a child’s eyes light up when they recognize their first words and can count to 100 by ones, fives, and tens!” Kami and her husband have four grown children and eight grandchildren. Her creative and enriching curriculum is full of interactive and developmentally-appropriate activities.
