

# Admissions Terms

Heard a few terms and you aren't sure what they really mean? Never fear... your answers are here:

## **Student Assessment**

After the family application is received the admissions office will schedule a student assessment. Students applying for 1st-12th grade are required to take grade-level assessments for entrance.

## **Family Interview**

Following the student assessment a family interview is scheduled with the Headmaster (secondary) or Head of Lower School (elementary). The interview provides an opportunity to get to know one another and a chance to ask questions.

## **Acceptance**

Following the interview the family will be notified in writing of Veritas School's acceptance decision.

## **Enrollment**

Enrollment is finalized when a complete and signed enrollment contract has been returned, as well as the enrollment fee and the tuition deposit.

## **Wait Pool**

If an applicant and family are found to be admissible but no space is available at that time, the option exists of remaining in a wait pool to be considered when a spot becomes available.
